## SAFETY AND SECURITY

AgriPoint uses **multi-factor authentication** that recognizes if a user is logging into the system from a different computer.

A **secure access code** is required before granting access to the system when a user is locked out or enrolling for the first time.

Account Access uses **built-in edits** to verify there are sufficient funds available before any funds are disbursed. It also has **audit-trail tracking** that lists the transaction history by each user logged into the system.

With any system, it's very important to **never share your login ID and password**.

## FAILED ENROLLMENT

If your enrollment fails, it could be because it does not meet our requirements for authorization:

- Entered information does not match our records. Double-check the spelling and dates entered. Remember, your name must match your driver's license (no nicknames or abbreviated names).
- An active loan, lease, or insurance policy is not found. If you do not have any current business or active accounts with Farm Credit Services of America or Frontier Farm Credit, you cannot enroll in Digital Tools.
- AgDirect® customers should visit <https://www.agdirect.com> for online access to loans originated through AgDirect.
